ANNOUNCEMENT EXTRAORDINARY!

WHILE it is a great responsibility to advise the public at large to see any certain picture, because tastes are so different, we do not hesitate to do so in the case of "The Doomed Battalion." This is more than a picture. It is an experience. It is not just a matter of taste: it is too big, too grand to miss satisfying all tastes. It has been described as "The picture terrific." Though this may sound extravagant, we know of no better way to describe it. If you care to see the new idea in picture-making, if you love the dramatic, if you thrill at the idea of something totally new and different, if you want a complete change of scene and atmosphere, you will make it a special point to see "The Doomed Battalion." Incidentally it will be your first chance to see those two new stars of the screen, the exquisite Tala Birell and the great Luis Trenker, will be showing at the Regent starting Monday. 10c matinee till 2 p. m. daily.

And families that have spent all their lives in the city are trying their hand at farming on a small scale until the city again offers a higher standard of living.

During the post-war industrial and agricultural revolution farm machinery forced down farm wages and mass production with mass consumption forced up industrial wages with the result that labor evacuated the country for the city. Today the situation is reversed.

THE THIRD DEGREE NOW ON TRIAL

When four policemen were held on second degree murder charges and seven others were told they would have to answer for assault and battery in the case of the Long Island prisoner who was beaten to death in an effort to extort a confession, it was noticed to the world that not only these men, but the infamous third degree itself was on trial.

The Judge who presided over the hearing denounced the actions of to loaf, principally? the police as a shameful performance and said that such a brutal tragedy reflected upon the cause of justice.
